

FCC,I pay for the service provided by XM Radio. The FM radio stations do not have the variety and their weather and traffic are never available when i need to hear it most. XM has excellent quality and the variety and public service information that I want. I have the freedom to choose what i want to hear, and the Nation Association of Brodcastors should not be able to dictate what I want to hear. Especially when I am paying for the service that I want. I respectfully urge that the FCC reject the NAB's petition 04-160 and hope that XM's ability to provide the programming that i want and deserve is not hindered.

Sincerely,

Lowell Benson
